

STMF Utilities

BECAUSE WE CARE

UTILITIES

The volatile nature of the energy market has made the timing of your purchase essential in protecting your cash-flow.

SERVICES

We offer a range of **FREE** services to minimize purchase costs and maximize efficiency. With an unparalleled working relationship with suppliers trading in the marketplace, we can offer expertise of the sector and the cost benefits of sharing in bulk-buying.

ACCOUNT MANAGEMENT

From the very first contact, your affairs will be managed by a highly trained industry expert, available to answer all your queries.

Connecting your business the smart way

STMF Utilities work with an independent utilities management consultancy supporting industry.

Utility consultant representation within the marketplace is fast becoming an absolute necessity to ensuring that you minimise your **COSTS**. Scouting the Energy markets as a consumer for an appropriate product can be both time consuming and costly and will almost always involve hassle.

Purchasing timing, choice of supplier and contract terms are imperative to protecting your cash flow from the volatility of the markets.

Our in-depth review of your current costs and requirements including the quotations come at **no cost** and if you are not happy with supplier quotations you are under absolutely no obligation to accept.

From your very first contact your enquiries will be dealt with confidentially and efficiently.

STMF Utilities take a pride in not only sourcing optimum pricing but also in providing an unrivalled level of customer care.
